Law, Liability & Non-Profit Organizations

Non-profit organizations play an important part in our communities and many people become involved with them in various capacities, as employees, directors or volunteers for example. This presentation provides a look at non-profits from a legal perspective. Questions for discussion include: How can these organizations be structured? How are non-profits affected by things like employment law or freedom of information and protection of privacy law? How do such organizations fit into the taxation system? Rights and responsibilities do those involved with non-profits have? Liability issue and more.
